

HYDRO VACUUM® WASTEWATER & FLOOD RECOVERY VACUUMS

Capture and transfer up to 3000 gallons of water per hour in one step with the compact RPV vacuum system. Features a powerful, industrial 2-stage vacuum motor. A heavy duty, internal pump transfers wastewater up to 100' away while vacuuming continues. . .no need to stop and dump the collection tank. It is ideal for interior and exterior facilities maintenance contractors who need to collect wash water or for restoration contractors who need to pick up large volumes of water after a fire or flood. Increase your efficiency with optional vacuum tools or even a Vacuum Twister (For use with cold water or hot water up to 200°F)

The **Hydro Vacuum®** control panel has separate, lighted control switches for vacuum and pump out functions giving you the option to run them independently or together. A basket strainer collects large debris, such as leaves or trash, and quickly lifts out for dumping. There is a drain plug at the bottom of the tank to dump any residual sediment that may have settled to the bottom. (For use with cold water or hot water up to 200°F)

Nilfisk HPW –HIGH PRESSURE WASHERS

Unmatched Service

Our philosophy has always been: CustomersFirst! We pride ourselves in creating, maintaining, and building relationships with our valued customers. We understand that customers are the heart and soul of any business and we do our best to not only accommodate our customers but exceed their expectations of exceptional service.

How do we do this? First, we work to understand your specific needs so that we can educate and help you find the perfect machines, pumps, parts, and accessories for your business.

We have several levels of support for your convenience. Our Regional Managers will help you find ways to grow your business. We boast a very knowledgeable and seasoned Inside Support Team to help answer your questions and find the right fit for you. Our Technical Support department is extensively trained on our products. We are here for you from finding the right products to fit your needs to technical questions so that you can maximize the lifecycle of your purchase. Located on both Coasts for your convenience and faster shipping times. Simply put, we strive to make your experience with us second to none!

Revolutionary Solutions

Nilfisk is one of the world's leading manufacturers of professional cleaning equipment. Our solutions help customers around the world, clearing the way for a safer, cleaner and more productive every day. Our products are primarily focused on the commercial cleaning market, which includes institutional and industrial customers, as well as professional contract cleaners. Pressure Washers and Parts and Accessories are one of the main product offerings. We are proud to offer our customers premium product at an affordable price.
